

DATAPAQ™ HIGH SPEED

Fast and Compact 2D Barcode Scanner

FEATURES

- Compatible with all 2D Datamatrix tubes
- Capable of scanning most SBS Rack formats
- Can be integrated into robotic platforms
- DataPaq™ software with free lifetime upgrades
- Cryoprotection and 1D rack code reading as options

Easy to Set-Up and Easy to Use

The DataPaq™ High Speed 2D scanner offers easy, out-of-the-box set up. This instrument scans racks in the SBS format and is supplied with all the features needed for robotic integration.

The High Speed offers fast rack scanning in a very compact format - this is one of the smallest scanners currently available.
